INFORMATION DISCLOSURE STATEMENT

In accordance with Applicant's duty of disclosure, Applicant is submitting the following references which have been cited in a corresponding Japanese patent application.

JP 5-196488 discloses a coriolis flowmeter to enhance sensitivity while reducing the effect of accuracy due to the measuring conditions such as temperature. No full translation is available to Applicant. However, we attach an English language abstract.

JP 10-48019 discloses a coriolis flow meter to prevent a phase difference signal of a vibration tube in proportional to Coriolis force from electromagnetic noise at a driving portion and temperature influence of a measuring fluid. No full translation is available to Applicant. However, we attach an English language abstract.

Respectfully submitted
for Applicant,
